

We Walk the Walk...

GS-42 Certified

MJV Group's Healthy Solutions is Indiana's first GS-42 Green Seal Certified building service contractor

USGBC certified headquarters:

Our Lafayette Head Quarters is registered with the USGBC (United States Green Building Council) as a LEED-EB Building

Electronic Invoicing:

We are able to both receive payments and issue invoices Electronically cutting down on Paper consumption

Our Fleet:

MJV Operations Coaches and Sales Team are Environmentally friendly in their Prius hybrid Vehicles

Green business:

Recognized by Indianapolis Chamber of commerce as a green business

Recycling program:

Our Lafayette headquarters has a recycling program that includes paper, glass, plastic and cardboard. We also have a recycle "pick-up" program in which we retrieve plastic containers that we use (i.e. empty RTD bottles) and return them to the office to be recycled

We Talk the Talk...

GS-42 certified

MJV Group uses all Green
Produces, Process and Procedures
In accordance to Green seal

Green Consumables

As a Partner with HP Products
MJV Group can help to convert all
Consumable products to be more environmentally friendly

Matting Plans

MJV Group can help set a matting program to allow for a cleaner building. This is a requirement for LEED certifications. Also by trapping dirty, soil and moisture at the entry way helps with reduced soiling through the building.

Day Light Cleaning

To help with energy consumption, MJV Group can help to day clean locations to save energy.

Johnson Diversity Training

All of MJV group team members are trained using Johnson's green healthy cleaning products, practices and procedures.

Re Lamping

To help with energy consumption, MJV Group can help to change lighting to be more energy efficient.
